

Freelance Offline/Online Editor (Since 2000)

I consent to you keeping my details on file and distributing for employment purposes.

I am a skilled narrative offline editor specialising in cutting documentaries and factual entertainment programmes for broadcast television but I can also online and grade if required. Clients have described me as being chatty, easy-going, patient, calm and fast, especially when there are tight deadlines to meet. I have the ability to work on my own or within a production team to deliver the programme on time. These are qualities about myself that have continued to put a smile on everyone's face after more than 25 years of working in broadcast television.

When I am not working on long-form documentaries or factual entertainment shows, I am known to grace the edit suites of many leading production company development teams and corporate companies cutting short form promos and tasters with my infectious presence. You will never find me twiddling my thumbs as I just love to work, whether it be in central London or my own edit suite.
