

Freelance Offline/Online Editor BFE with AI Skills

I am a skilled narrative offline editor specialising in cutting documentaries and factual entertainment programmes for broadcast television but I can also online and grade if required. Clients have described me as being chatty, easy-going, patient, calm and fast, especially when there are tight deadlines to meet. I have the ability to work on my own or within a production team to deliver the programme on time. These are qualities about myself that have continued to put a smile on everyone's face after 30 years of working in broadcast television. I also run my own small facility near Gatwick which offers a unique tailor made editing service with all the luxuries of a top Soho Post facility.

Before you check out my credits here's why you should hire me:

"I edit with Daren as often as I can, which will tell you pretty much all you need to know about how much I rate his abilities. He's got it all really - fast, calm under deadlines, and an instinctive feel for what makes a great sequence in any genre of programmes. A lovely bloke, a great editor and a pleasure to work with."

Guy Evans - Producer/Director

Daren is a quick, resourceful editor, with a great eye and great visual memory, who is good at shaping a complex story and making a creative contribution."

Mick Gold - Producer/Director

“Daren is a pleasure to work with, good with music and narrative content and is great at calmly handling client driven input.”

Paul Olding - Producer/Director

“Daren is a creative, thoughtful and intelligent editor who is equally happy working collaboratively or on his own. He’s always good company too and keeps a cool head when working to tight deadlines. Daren is a pleasure to work with and his work is a pleasure to watch!”

David Warren - Series Producer/Director

“I’ve always found it a pleasure working with Daren. The enthusiasm and dedication he brings to every production is hard to find matched by anyone else in the business.”

Stuart Strickson - Producer/Director
